TACKLE IT
RUGBY LEAGUE VERSUS DISCRIMINATION

A **stereotype** is a fixed idea that someone has about a thing or a group that may often be untrue or only partly true

My name is...Jodie

Just because I am... a woman

I am not... too weak to play rugby league

I am not... scared of bumps, bruises
and getting muddy

I am... a successful rugby league player
for St Helens in the Women's Super League
and I've played for England!

I am... a talented and passionate
rugby league player

My name is... Oliver

Just because I am... a person with a disability

I am not... a person with no passions or interests of my own

I am not... unable to feel sad or frustrated when people don't believe in me

I am... a talented rugby league player for Warrington Wolves in the Community Integrated Care Learning Disability Super League

I am... someone with talents and gifts to share with the world!

Now it's your turn!

Oliver's Team Rules:

Be open minded

Don't let
stereotypes
get in the way

Be kind

Recognise
that others have
feelings too

Be positive

Believe in
yourself and
others

Be fair

Help people
to shine!

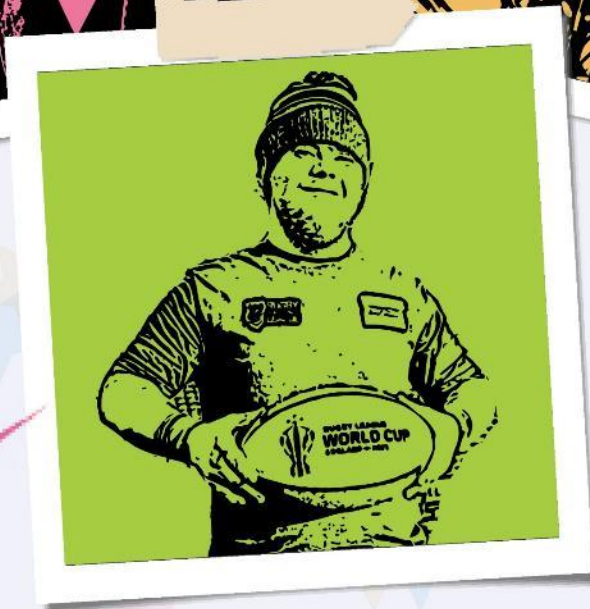

If I met Oliver

I would ask him...

I would tell him...

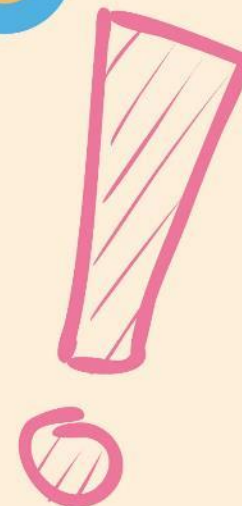

I would show him...

I would promise him that...
