

Our plan for the next 5 years: **Best Lives, Bolder**

We are Community Integrated Care.

We want everyone to live their best life possible.

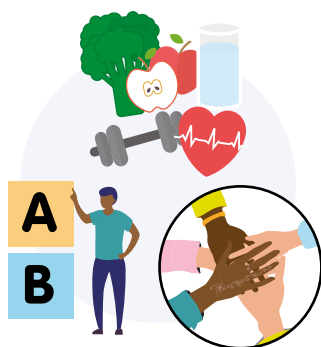

This plan tells you what we want to do over the next 5 years.

It is called 'Best Lives, Bolder'.

It says how we will help people with learning disabilities, mental health conditions and autistic people.

We listened to thousands of people to make our plan.

What we want

We want to help make a world where everyone can:

- Make their own choices
- Achieve their goals
- Be listened to and treated fairly
- Be part of their community

What we do

- We help the people we support live great lives
- We do this through great care and support
- We listen to what matters most to each person
- We want to be the best at what we do

Our 4 big goals

1. Excellence

We will:

- Give great care that helps people live happy lives
- Help each person set goals and reach them
- Keep learning and getting better every day

2. Reach

We will:

- Support more people in more places
- Learn more about the people we support so we can give the right help to each person
- Find new ways to make money so we can try new ideas that help improve people's lives

3. Influence

We will:

- Speak up to change things, making care and support better for everyone
- Share what we learn with others to change things that don't work well

4. Enabling

We will:

- Look after our colleagues
- Give training and tools so they can do their jobs well
- Make sure everyone feels valued and included

We know not everyone is living their best lives.
We want to change that.

We are proud of our past.
But we are excited about our future!
